EXPECT 1,000 AT CLUB ROUND-UP

Purdue Will Entertain Big Delegation of Junior Visitors From May 3 to 6

WILL RECEIVE INSTRUCTION

Divisions For Girls And Boys Are Made and Many Judging Contests Have Been Arranged

Lafayette, Ind., May 2—Plans are complete for the holding of the Indiana boys and girls annual club round-up at Purdue University May 3 to 6, and indications are that 1,000 to 1,200 of the winners in the various junior projects will gather for the four day affair. The round-up is not only a period of instruction for the youngsters who earned their right to attend it by reason of their excellent work as club members, but also one of intensive instruction.

Corn, cattle and swine judging contests are scheduled for the boys with sewing, bread and canning judging contests for the girls, and an egg judging contest for both boys and girls. Suitable prizes will be awarded for each. In addition, girls teams will give demonstrations in canning, sewing, care of finger nails, home nursing, dyeing, patching and darning. The boys will witness all sorts of demonstrations from members of the university faculty and extension staff. They will be shown how to prepare animals for the show ring, given instruction in feeding and care of livestock, poultry, and various lines of farm work.

However, all the work will not be confined to contests, demonstrations and lectures. The club members will be guests of the engineering schools one evening of the round-up at an "open house" when all the laboratories and shops will be thrown open to the public. Every day will include a recreational period when the games will be directed by university athletic coaches. The annual Purdue egg show will be held in connection with the round-up, and the several hundred dozen eggs on display will be used for an egg barbecue by the university students and the boys and girls will be their guests at this event. This will be on the university farm. Various sorts of additional entertainment also will be provided and indications are for a record-breaking crowd of youngsters.

IN THE PUBLIC EYE

BY Howard Allen

SEE JUST AS WELL AS YOU "USED TO"

The man who expresses the desire to see as well as he "used to" should have us examine his eyes with a view to prescribing lenses that will correct his failing sight. We will correct all eye deficiencies that are not actually caused by a disease of the eye. The usual eye trouble is imperfect focal accommodation of the crystalline lens. This trouble has various ramifications that we can prescribe glasses to remedy.

SAYS COMBINE HAS CAUSED STAGNATION

J. W. Lauck, Labor Economist Charges Huge Banking, Railway and Industrial Combination

ATTACKS RAILWAY POLICY

(By United Press)

Chicago, Ill., May 2.—A huge banking-railway-industrial combine has precipitated industrial stagna- tion to crush labor, J. W. Lauck, la- bor economist charge today.

Lauck attacked railway's policy in the general defense of the unions for the national working agreement between railroad and employees. Lauck's statement was prepared for presentation to the railroad labor board last week on abrogation of the national agreement. However the railroad board decided the national agreement question before Lauck could present his argument and the statement which he had presented was made public by the unions.

It was not presented to the board. He alleged through interlocking directorate, financial institutions in New York virtually controlled the principal railroads, equipments, companies and basic industries. This interrelated capital group ap- plies, the "Unemployment cure" to subjugate railroad labor, declared Lauck. The combination deliberately deflated farmers and then under- stood to be precipitating industrial stagnation to deflat labor.

CONSECRATION

DRAWS SCORES

Continued from Page One

Indianapolis, general chairman of the committee, made a brief address and introduced William Geake of Fort Wayne, deputy for Indiana for the supreme council, thirty-third and last degree of the Scottish Rite. Charles J. Orbison, past grand master of the Indiana Grand Lodge, Free and Accepted Masons, deliv- ered the principal address of the day. Judge Orbison told of the sac- eredness of consecrations from Bi- blical times down to the present, paid a glowing tribute to the Amer- icanism of Masonry and pointed out that the only thing in the way of a red flag or redism connected with anything Masonic was the red in Old Glory.

Prejudice Against Glasses

Persons are often prejudiced against glasses and sometimes positively refuse to wear them even when they know they are imperatively needed.

But a contest with age is hopeless, and it is the part of wisdom to yield gracefully to the first summons to surrender.

We are prepared to give you advice in this matter—correct advice, time-saving, sight-saving advice. We are properly equipped for making thorough and intelligent examinations of your eyes and if you need glasses, will furnish them at as low a figure as correct lenses and perfect fitting frames can be had anywhere.

ANNOUNCE QUOTAS OF R. C. GARMENTS

Indiana's Apportionment is 70,000 Garments, 8,500 Layettes; According to Division Headquarters

ILLUSTRATES GREAT APPEAL

Division is to Furnish 300,000 Garments and 38,000 Layettes For Waifs of Central Europe

Cleveland, O., May 2.—Quotas of garments and layettes to be produced for the hundreds of thousands of waifs of Central and Eastern Europe by volunteer workers of the American Red Cross have just been announced for Lake Division, which now embraces Ohio, Indiana, Michigan West Virginia and Kentucky. The division quota of 300,000 garments for boys and girls up to 14 years and 38,000 layettes has been apportioned as follows:

Ohio, 100,000 garments; 15,000 layettes; Indiana 70,000 garments; 8,500 layettes; Michigan, 70,000 garments; 8,500 layettes; West Virginia, 30,000 garments; 3,000 layettes; Kentucky, 30,000 garments; 3,000 layettes.

"Please, Muvver, can't we send this dycss to one of the poor little babies?"

The three-year-old daughter of a Red Cross volunteer worker in an Ohio chapter had been told by her mother of the suffering little ones overseas. Slipping from her mother's knee, she ran to her nursery for the little dress she had outgrown. As she held it out to her mother, tears glistened in her eyes.

This illustrates the great appeal of the dire need abroad among the almost naked victims of the war. Many new-born babies have for their only covering a sheet of newspaper. Hundreds of little children, many of them orphans, have been found living in devastated villages from which all adults had fled. For food they had roots; leaves—anything at all they could find, and for clothing they had literally "rags and tags."

Secretary of Commerce Herbert Hoover, chairman of the European Relief Council, has expressed his appreciation of the gigantic production campaign that has been undertaken by the Red Cross to supplement the child feeding operations abroad. In a statement he says:

"This is, indeed, a splendid and most essential service. The children as well as the adult population of Central and Eastern Europe, in particular, are daily suffering from exposure and from the diseases that follow in the wake of an underfed condition."

One of the most famous artesian wells in existence is that at Grenelle, in the outskirts of Paris, where the water is brought from a depth of 1,798 feet. The well yields 516 gallons of water a minute.
